

MANILDRA GROUP
Commitment to Excellence

POSITION VACANT

Apprentice Boilermaker/Welder – 1st Year

The Manildra Group of Companies has a vacancy for an enthusiastic and motivated person to commence as a 1st year apprentice Boilermaker/Welder in our Maintenance Unit at the Manildra plant located in the Central West of NSW.

This is an exceptional opportunity to start on a career path that will lead you to obtaining a nationally recognized qualification in Certificate III in Engineering Fabrication.

The successful person to undertake this full time role combining work and registered training to meet the qualification will need to be a motivated young person looking to commence as a 1st year apprentice with a genuine interest in a long term career as a metal fabricator.

You will:

- Be a great team player and have excellent communication skills
- Have excellent written and spoken English
- Be a motivated individual with a desire to commit to a 4 year apprenticeship
- Commit to the study requirements while attending TAFE
- Have an understanding of WHS
- Show a genuine passion and interest in the metals and welding
- Have a current driver's licence (Red P's minimum)

In short, we are looking for the type of person who is willing to learn on the job, go the extra mile, be part of a team and is looking for more than just a job, but a long term career.

Enquiries should be addressed to: Will Cain – Ph: 02 6392 1245.

Applications should be addressed to: Human Resources Coordinator, Manildra Flour Mills, Kiewa Street, Manildra NSW 2865 or by email to donna.strahan@manildra.com.au

Applications close: Sunday 17 February 2019
