

## **MANILDRA GROUP**

*Commitment to Excellence*

### **POSITION VACANT - Maintenance Fluter**

Manildra Flour Mills has a vacancy for a Maintenance Fluter to be located at the Manildra site.

The successful applicant will have the ability to:

- work safety to a high standard of quality and efficiency
- work well alone and as part of a team
- possess good communication and time management skills
- use their initiative and make decisions based on company policies and procedures

The applicant will have appropriate qualifications in Toolmaking or as a Fitter/Machinist. Similar engineering tradespersons or mature workers that possess sound engineering experience will also be considered.

The applicant will need to work independently to refurbish flour mill rolls and prepare them for reinstallation within the mill. The applicant will work on a rotating roster consisting of 8 hour day and afternoon shifts.

This is a great opportunity for motivated individuals who are looking for a long term and rewarding career within a strong, stable Australian owned company.

Conditions of employment are in accordance with the appropriate Award and Enterprise Agreement.

Suitably qualified or experienced women are encouraged to apply.

Manildra Group is an equal opportunity employer.
