### MANILDRA GROUP COMMUNITY NOTICE

Manildra Group extends our gratitude to the residents of Bomaderry for your patience, understanding, and cooperation during this time. We value our relationship with the local community and appreciate your continued support.

On Thursday, 17<sup>th</sup> October, at approximately 10pm, a structural failure occurred at our Shoalhaven Starches site, affecting three grain silos and resulting in some grain spilling into the Shoalhaven River.

To ensure a coordinated and effective response, Manildra Group is working with authorities and regulatory bodies, including SafeWork NSW, the Department of Planning, Housing and Infrastructure, and the NSW Environment Protection Authority.

The safe and timely demolition of the affected structures is a priority, requiring work to continue 24/7. These works may increase noise and vibration in the surrounding area. We value the wellbeing of the local community and recognise the potential impact of these activities.

Manildra Group has committed to reducing noise and vibrations during the hours of 10pm to 6am daily.

Manildra Group has engaged an independent noise consultant to assist in identifying and minimising noise and vibration from the demolition and clean-up activities.

For any questions, comments, or concerns, please contact our team during business hours on (02) 44238 200, via email [nowra.reception@manildra.com.au](mailto:nowra.reception@manildra.com.au) or after hours on 1300 300 104.
